DETAILED ACTION

The amendment filed June 10, 2004 and the remarks presented therewith have been carefully considered. However, they are not deemed to be fully persuasive.

Claim Rejections - 35 USC § 112

1. Claims 3, 5, and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no clear antecedent basis for "said bag closing" as recited in line 7 of claims 3 and 5.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 5, as understood, is rejected under 35 U.S.C. 103(a) as being unpatentable over either Johnson or Hobart in view of Cooper.

Both Johnson and Hobart show pet litter collection bag/spatula assemblies that contain all of the structural elements as broadly as recited in claim 5 of the instant application except that the scooping edge of their spatulas do not have smoothly contoured bumps.

However, Cooper shows a litter scoop, best shown in Fig. 11, having a scooping edge (31) formed with smoothly contoured teeth for assisting in the picking up of litter.

Accordingly, it would have been obvious to one of ordinary skill in the art at the time the invention was made to form either the Johnson or Hobart scooping edge with a smoothly scalloped contour similar to that shown in the Cooper patent so that pet litter could be more efficiently picked up from certain surfaces.

Allowable Subject Matter

4. Claim 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claim 3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Specification

6. The disclosure is objected to because of the following informalities: In the newly added paragraph beginning on page 7, line of the specification, the reference numeral "32" (in line 2 of the paragraph) should be changed to --22--; the word "clearing" (in line 2 of the paragraph) should be changed to --clearly--; and it appears that the sentence "Each recess has a closed bottom" (in lines 5 and 6 of the paragraph) should be deleted since the exact same sentence has been previously recited in the third line of the paragraph.

Appropriate correction is required.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

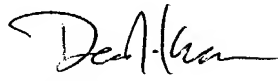

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
